Comprehensive Funding Development: How To Sustain Your Programs During Tough Economic Times

Program Summary

Writing a good sustainability plan alone it NOT going to keep you going. Nor will it get the funding you need in these tough economic times. Organizations must have the infrastructure and implementable forward thinking plans. You must also have solid, well developed project ideas before you seek funding from outside resources.

Take the opportunity to learn more about the process that allows billions of dollars to be awarded in grants to projects that have developed innovative solutions for problems that are of concern to the communities/populations served.

Successful sustainability and funding development plans have the same factors in common;

1. They address pressing problems in an innovative way.
2. They are carefully planned, organized, focused, and, most importantly, convincing and persuasive.

However, creating effective, compelling proposals can be difficult if you do not have a good understanding of the practical aspects of funding development.

Program Goals and Learning Outcomes:

This four hour two-session webinar will include the nuts and bolts of how to write a proposal, writing goals and objectives, the grant makers perspective, developing a budget, establishing need with hard data, developing solid evaluation mechanisms, creating in-depth sustainability plans, learn how to understand the importance of linkages, coalitions and partnerships when applying for funding and where to find diverse sources of funding.

Finally, an important focus of the webinar will be how to link grants with creating innovative projects linked to sustainable communities, environmental/green economy, and technology, with specialized components focused on Federal funding among others. Program participants will learn;

- Organizational Assessment and Readiness
- Effective Marketing Strategies
- Financial Management
- Sustainable Strategies
- Fund Development
- Fundraising

"The webinar interactive system was easy to use. Joyfields staff were very attentive, professional, and well-organized. The presenter was clearly very knowledgeable and professional. A positive experience.."

Workshop Leader *

LéCia D. Watts, Director, Procurement and Contract Services, **AMIkids, Inc.**

Ms. Watts has over 25 years providing her business and fund development talents to national and local (for-profit and non-profit) companies to further their strategic mission/vision (E.g., National Urban League and affiliates in 34 states; and Genesco Inc.).

As a resource and technical assistance provider, her background includes training and assistance in prospect research, program design and implementation, board development, financial oversight and compliance, relationship fundraising, mission-driven strategic planning, systematic public relations and marketing efforts for sustainability, and results-oriented evaluations/outcome-based performance.

Currently, LéCia is the Director, Procurement and Contract Services for AMIkids, Inc. (56 juvenile justice programs in Florida, Georgia, Illinois, Louisiana, Pennsylvania, South Carolina, Texas and Virginia) responsible for federal, state and local contracting opportunities.

"Loved the webinar format! Great technology and ability to limit travel time, time away from family, etc. and still get great training."

"Personally I felt for the first time that this program was developed for the work that I do."

I was very impressed with the depth of knowledge the facilitators possessed about evidenced based best-practices in the industry. However, it wasn't an over-your-head kind of dissemination . . . very practical.

WHO SHOULD ATTEND

WHO SHOULD ATTEND

- Executives and program administrators and developers
- Community-based Development Organizations (CBDO)
- Grant Writers
- Grant Makers and Monitors
- State and County Agencies
- Health, Housing & Social Service Agencies
- Foundation Administrators and Corporate giving Organizations, among others.

Your company provided an incredible opportunity for professional development and was laser focused around what other facilities are doing regarding reentry and reintegration based on statistical evidence based practices. I personally utilized this workshop from a vendor perspective to ensure the opportunities our company is pursuing in reentry and reform is in line with Best Practices and working towards Evidence Based Practices in the Correctional Industry. I was truly amazed by the detail and level of information your course provided. As a matter of fact, I would say that this was one of the best "hands on" educational programs I have ever attended, including many of the Masters level courses I attended in graduate school. I will be, and have already, STRONGLY recommended this course for our County, DOC, and international correctional customers and would even recommend this to other vendors of the corrections industry interested in providing reentry or rehabilitation services.

This was truly worthwhile and should be a mandatory course for Correctional Leaders everywhere.
